The Biggest Names are on our Games™

We are the high-tech electronic entertainment company that puts you in the picture with home versions of television's top game shows. These are the games that families—from kids to teens to parents to seniors—have been eagerly playing for several years. Now, here's a new version to play...either with friends or alone against the computer.

GameTek's Nintendo version of Classic Concentration is lively and challenging, just like the television show. Test your skill and memory as you try to match the prizes behind the numbers, then guess the rebus on the game board. This exciting game is one of the most popular, long-running shows on TV. It's great fun for the whole family!

This official seal is your assurance that Nintendo has reviewed this product and that it has met our standards for excellence in workmanship, reliability and entertainment value. Always look for this seal when buying games and accessories to ensure complete compatibility with your Nintendo Entertainment System.

This game is licensed by Nintendo® for play on the Nintendo Entertainment System.

SETTING UP THE GAME

1. Players have the option of entering a “Game Code.” This is a 4-letter code provided at the end of previous games. It guarantees play through all the puzzles in this program before any repeats appear. (The first time the game is used, the player would have no game code and would choose not to enter one. The computer would then select a puzzle at random.)
   
a. If a code is to be entered, use Button A on Controller 1 to confirm YES. Enter the code by scrolling through the alphabet; confirm each letter with Button A, then scroll to END and confirm with Button A.
   
b. If no code is to be entered, scroll to NO and confirm with Button A. The computer will then select a puzzle at random.

2. Select a 1- or 2-player game.
   
a. In a 1-player game, the computer is your opponent. The live player always goes first.
   
b. In a 2-player game, players decide in advance who is to go first.

3. Player 1, you are offered a choice of 8 contestant characters. Press Button A to change your selection; press Button B to confirm your selection. In games against the computer, a name and character will be entered automatically when the computer player’s turn comes on.

4. Players take turns spelling their names. Scroll the cursor to the letters (a maximum of 7 letters), confirming each with Button A. Scroll to END and confirm with Button A.
   
a. Use the “ ← ” to erase any incorrect spelling.
   
b. If no name is entered, players are called “ONE” and “TWO.”

5. Player 1, press START to begin.
1. The screen opens with the Concentration board displaying 25 doors, one of which has been randomly selected to open and reveal part of the hidden rebus.

2. A flying star cursor is displayed at door number 1.

3. Player 1, your turn is announced.
   a. Move the cursor to the door of your choice; confirm with Button A.
   b. A door opens and a prize is displayed.
   c. Repeat steps a. and b. for the second door.

4. If the prizes do not match, play passes to Player 2; if the prizes do match, the prize is posted on the board behind the player, and both doors open to reveal two parts of the rebus puzzle.

5. If one prize is a WILD CARD, it makes an automatic match. Those 2 doors plus the card’s match open on the board to reveal 3 parts of the puzzle.

6. If both selections are WILD CARDS, you get to select one more door. After it opens, its match is automatically opened as well, then all 4 doors (the matched pair and the 2 wild cards) open up to reveal 4 parts of the puzzle. The matched pair’s prize is then added to your board.

7. After you make any match, you are offered the option of guessing the puzzle.
   a. If you select NO, you get to make 2 more selections—your bonus for making the match.
   b. If you select YES, the alphabet screen is dis-
played for you to spell out the word or saying that solves the rebus puzzle.

1) If your answer is incorrect, you still take your bonus turn (as in 7a).

2) If your answer is correct, the round is over and you win the prizes posted behind your seat.

8. If all the doors have been opened and the last player to make the match cannot guess the puzzle, the other player is offered the chance. If he cannot guess the puzzle, no one wins the round. The last player to answer presses any button to replay the round.

9. The winner presses any button (A, B, START or SELECT) to bring up the second round.

1. The Second Round plays the same as the First Round.

2. The winner of the First Round gets to start the Second Round.

3. If the same player wins both the First and Second Rounds, he or she automatically goes to the Final Round. If each player has won one round apiece, a Third Round is played to decide the winner.
1. The Third Round is played the same as the First and Second Rounds.
2. The winner of the Second Round starts the Third Round.
3. The winner of the Third Round presses any button to begin the Final Round.

1. The winner’s character is displayed beside a board with 15 closed doors. The clock is ready to begin a timed countdown (from 35 to 00).
2. The winning player presses START to begin.
3. Behind each door is the name of a car. If the player is able to make 7 matches (plus 1 extra which opens after 7 matches) before the timer runs out, he wins the car.
1. At the end of the game, a 4-letter code is offered. Players may wish to use pages 19 and 20 in this booklet or a separate piece of paper to record these codes for future game play.

2. If game play is continuing without turning off the power, a game code is not necessary; if game play is to continue, the winning player confirms YES.

3. Player 1 then selects YES for same two contestants or NO to display the name selection screens for new contestants.

1. This game has been programmed to utilize the full TV screen. Since some older model TV sets have rounded screens, a portion of the image may be blocked out.

2. Spelling: This game has been programmed to allow for minor variations and errors in spelling. If a rebus answer is reasonably close to the word’s actual spelling, the computer will accept it as correct and will display the actual spelling when accepting the player’s answer.
SAFETY PRECAUTIONS

1. This high-precision Game Pak contains complex electronic circuitry. Avoid temperature extremes when storing it or unnecessary shock when moving it.

2. Terminal connectors should not be touched or allowed to get wet or dirty. This can damage the game.

3. Never attempt to open or take apart the Game Pak.

4. Do not clean the Game Pak with paint thinner, benzene, alcohol, or any such solvents.

5. Be certain that the Control Deck POWER BUTTON is turned off when inserting or removing the Game Pak cartridge.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception.

It has been type-tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful: "How to Identify and Resolve Radio-TV Interference Problems." This booklet is available from the U.S. Government Printing Office, Washington, D.C., 20402, Stock No. 004-000-00345-4.

WARNING: DO NOT USE WITH FRONT OR REAR PROJECTION TV

Do not use a front or rear projection television with your Nintendo Entertainment System® ("NES") and NES games. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games; other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.
